THE ALMIGHTY Argument of Price

Doesn't Amount to Shucks Unless
Backed Up By Quality!

When we advertise reduced prices we mean reduced prices on the goods in the store—the high-grade goods for which this store is famous. That we back up our statement with performances, not promises, is well known. Hence the quick and cheerful response to any bargain announcement we make. Just now the store is full of money-saving chances.

Railroad Tracks to Be Laid Across North Capitol Street.

Temporary Permit Granted to the Baltimore and Ohio Road—for Facilitating the Handling of Cars During Inauguration—Question of Blinds for Manual Training School.

On the recommendation of A. L. Thomas, Inspector of the Engineer Department, the Commissioners have granted the request of George E. Hamilton, counsel of the Baltimore and Ohio Railroad Company, for permission to lay tracks across North Capitol Street, between D and E Streets, into square 620, and to close North Capitol Street between the limits mentioned in connection with inauguration.

In his report Mr. Thomas stated that the request is the same as that granted to the same road four years ago, and that the permission is asked to enable the company the better to handle the increase of traffic incident to the inauguration ceremonies.

At the instance of Thomas J. Fisher, Inspector of Electric Lighting, the Commissioners have voted that sixteen gas lamps in the northwest section be changed from regular gas lights to Welsbach lights, as follows: One on K Street, between Seventeenth and Connecticut Avenue; three on K Street, between Fifteenth and Sixteenth Streets; two at the corners of Fifteenth and K Streets; one on K Street, between Vermont Avenue and Fifteenth Street; three on the corners of Fifteenth Street and Vermont Avenue; four on Fifteenth Street east, between I and K Streets, and two on K Street, between Fourteenth and Fifteenth Streets.

Mr. Fisher states that there will be no expense connected with the equipment of these Welsbach lamps other than the cost of maintenance to July 1, 1901, which will be paid out of the special appropriation of \$3,000 for this service, of which there will be sufficient balance remaining to maintain these from March 1. Mr. Fisher also states that these lamps will be in line with one of the existing Welsbach routes.

J. A. Chamberlain, Director of the Manual Training School, recently wrote to the Commissioners and suggested that inside blinds be omitted in the P Street Manual Training School building, and that shades be substituted therefor. Mr. Chamberlain also asked to be informed of the boiler capacity required in addition to the amount needed for heating and light.

At the request of the Commissioners, John B. Brady, the Inspector of Buildings, has reported that the contractor for the school building in question will allow the District the sum of \$52 if the inside shutters are omitted and he will furnish two iron beams or lintens to support the brick walls forming the passage way.

As this allowance is, in the opinion of the inspector, reasonable, he recommends that it be accepted. As to the boiler power needed the inspector informs the Commissioners that a horse power of 110 at five pounds pressure will be needed.

Owing to an error in sending a letter to Dennis Keohane, the Commissioners have extended the time limit to a notice sent to Mr. Keohane to March 11, before which time he is enjoined to bring certain plumbing work within the requirements of the plumbing regulations.

Ida E. Watzerrich, of 2506 P Street northwest, has asked the Commissioners for permission to connect premises 2538 Q Street with sewer at House No. 2538. The Inspector of Plumbing, after making an investigation, recommended that the request be granted.

HAVING A RUN ON CHAMBERLAIN'S COUGH REMEDY.
 "Our druggists have had such a run on Chamberlain's Cough Remedy that they have had to order more, and today there is none in stock. I went for a bottle this morning and the druggist said: 'Chamberlain's goes quicker than any cough remedy I have.' I bought a bottle. I have had a cold for some time, and I have tried many remedies, but none have done me any good. I have tried Chamberlain's, and it has cured me. The New Spring Hats Are In

For men. Derbys and Fedoras. Prices range from \$1.50 to \$4. But we direct particular attention to the

\$2 Derbys,

Because they are better than anything we've heretofore shown at the price, and equal many \$3 qualities elsewhere.

All the newest blocks in Black, Maple, Mocha, and Oxford. Guaranteed silk band and binding and pebble goat sweatband. These hats are good enough for any man's head—and will render eminently satisfactory service. We could just as easily get \$2.50 for them—but as a special for early buyers we make the price \$2.

The "Grand Duc" is a square-top Derby. \$2.50. Quite popular in New York and London; black and brown.

Other Hats are \$3, \$3.50, and \$4. The world's best goods at these prices—which is another way of saying that we charge for hat quality alone—not hat name.

Men's \$3 and \$3.50 Shoes, \$1.95

Odd and ends. All styles in all leathers, but not all sizes. The men with large peddlers will share best, as best showing is in sizes 8 to 10. Quite a few small sizes and least of medium. Stock-taking upturned these shoes. They're right out of our regular \$3 and \$3.50 lines; hence extraordinary from a value standpoint—because splendid worth at original askings.
